OBJECTIVE

Final-year Computer Science student with hands-on experience in Python, SQL, and web development through academic projects. Eager to begin my career as a Software Engineer, apply problem-solving skills to real-world challenges, and grow in a collaborative, learning-driven environment.

TECHNICAL SKILLS

Programming Languages: Python, SQL, JavaScript

Web Technologies: HTML, CSS

Core CS: OOP, DBMS, Operating Systems, Computer Networks, Data Structures & Algorithms

Databases: MySQL

Libraries/Frameworks: OpenCV, Scikit-learn

Tools: Git, GitHub, VS Code

PROJECTS

Facial Emotion Detection Through Image and Video Analysis

Python, OpenCV, CNN, SQLite3, OpenAI API

- Built a real-time web application that detects seven human emotions (Happy, Sad, Angry, Fear, Surprise, Neutral, Disgust) from live webcam video or uploaded images, using OpenCV for face detection and a pre-trained FER (Facial Emotion Recognition) model for classification.
- Integrated the OpenAI API to generate personalized motivational messages and wellness recommendations based on the detected emotion.
- Collaborated with a college team across design, implementation, and testing; achieved reliable real-time recognition under normal lighting conditions without specialized hardware.

AI Resume Analyzer

Python, Streamlit, NLP

- Built a tool to parse resume text and extract key skills using NLP techniques.
- Designed a skill-matching module to compare extracted resume skills against relevant job requirement keywords.

Smart Mail Alert

Python, NLP, IMAP, Node.js, Twilio API

- Built an NLP-based email classification system in Python to categorize emails as Important, Normal, or Spam.
- Fetched emails using the IMAP protocol for processing and classification.
- Integrated the Twilio WhatsApp API to deliver real-time notifications for important emails.

EXPERIENCE

Python Development Intern — QSkill

Remote

- Developed Python-based applications involving data processing, scripting, and debugging.
- Applied Python and Pandas for data processing and handling as part of development tasks.

EDUCATION

B.Tech in Computer Science and Engineering, Sridevi Women's Engineering College, Hyderabad

2023 - 2027

CGPA: 8.34/10

Intermediate (MPC), MPJTCWR Junior College

2021 - 2023

Score: 91.3%

SSC, Sri Sai Prashanthi Vidyaniketan

2020 - 2021

CGPA: 10/10

CERTIFICATIONS

- Cloud Computing — IBM
- AI/ML — Infosys Springboard
- Data Analytics Job Simulation — Deloitte (Forage)
- Python — Cisco

ACHIEVEMENTS

- Completed a college major project: Facial Emotion Detection Through Image and Video Analysis.
- Solved 200+ problems on LeetCode and earned skill badges.
- Participated in Smart India Hackathon (SIH).
